

STINGER

“FOR DIRECT SMALL DIAMETER ANODE WIRE CONNECTIONS”

“STINGER”
The BAC PIN BRAZING Permanent Anode Connection

STINGER permanently connects anode wires with a small diameter to pipes utilising the unique Silver alloy BAC PIN BRAZING method, without the use of cable lugs, crimping or old exothermic reactions.

Advantages of Pin Brazing with **STINGER**

- Silver soldered permanent connection
- No more crimped cable lugs
- Does not cause unnecessary damage to the pipe
- No dangerous explosive materials
- No need for different carbon moulds for different wires
- Safe for internal coatings
- Fully adjustable equipment, adding greater flexibility with differing pipeline material.
- All weather system. Can be used in rain and snow.
- Very fast and economical.

Part Number 2781008010 for 14-12AWG or 2.5mm² wires
Part Number 2781008040 for 10AWG or 4.0-6.0mm² wires

US PATENTED

BAC Corrosion Control Ltd has been assessed and certified as meeting the requirements of ISO 9001:2008, and only supply and endorse BAC Corrosion Control Ltd Pin Brazing products and consumables that are approved to that standard. If the use of non BAC Pin Brazing products and consumables is evident then warranties can be affected or even cancelled.
